Terms of Business Letter

This Terms of Business Letter provides an overview of the insurance services offered by Hang Seng Bank Limited ("the Bank"), and indicates the scope of our insurance services provided by our insurance sales staff.

- The Bank will at all times endeavour to suggest a range of insurance products to the customer having considered the possible suitability for the customer's personal circumstances. The Bank's insurance sales staff will perform a needs analysis for the customer before making any suggestion to him/her. All suggestions are based on information that the customer provides to the Bank. All information that the customer discloses will be kept confidential and used in accordance with the applicable laws and regulations. The customer has the right not to disclose information but this will restrict the ability of the Bank's insurance sales staff to suggest products or services.
- The Bank will provide documentation to the customer to explain how the insurance product works and to disclose relevant information including risks, fees and charges, and other relevant features of insurance products. The customer should read and understand all accompanying documents of the insurance products before purchasing the products.
- The Bank does not give any investment advice on investment-linked insurance products. The Bank may review the customer's existing insurance needs at any time upon the request of the customer.
- The Bank's insurance sales staff will ask the customer to complete a Risk Profiling Questionnaire when the customer is considering purchasing any investment-linked insurance products. This questionnaire will help the customer decide what level of investment risk he/she is able to accept. As the customer's risk appetite can change over time and he/she may have different risk appetites depending on the purpose of the investment, the Bank will offer the customer the opportunity to complete this questionnaire each time when he/she is purchasing any investment-linked insurance products.
- If the customer requires advice on his/her legal, taxation or estate planning position, he/she should consult a qualified professional.

Effective from 1 January 2018, the Insurance Authority ("IA") will impose a prescribed levy on insurance policy pursuant to section 134 of the Insurance Ordinance (Cap. 41). Such levy payment should be made together with the premium payment to Hang Seng Insurance Company Limited ("The Company") for direct remittance to the IA.

From 1 April 2021 onwards (date inclusive), subject to the applicable levy cap HKD100, the amount of levy payable for each premium payment is the amount of premium multiplied by the applicable levy rate of 0.1%.

It is the statutory duty of the policyholder to pay the prescribed levy to IA through authorized insurers. IA may impose on the policyholder concerned a pecuniary penalty not exceeding HKD5,000 for non-payment of levy. The Company is collecting the levy payment from the policyholder on behalf of IA. Please note that the premium amount shown in this illustration does not include the levy payment. All subsequent premiums to be paid under the insurance policy shall also be subject to the prescribed levy payment. For details of the levy matter, please visit www.ia.org.hk/en/levy.

Hang Seng Insurance Company Limited

The table below illustrates the impact on Cash Values under Pessimistic and Optimistic Scenarios. The projected benefits under the two scenarios are calculated assuming the investment returns are lower and higher than the Company's current assumed investment return respectively; while other factors, such as claims experience, expense factors and persistency factors, affecting these values are assumed to remain unchanged. The two scenarios do not represent lower and upper bounds for the actual investment return; the actual amount of non-guaranteed benefits payable may be higher or lower than those illustrated. They only illustrate, for reference purposes, the projected variation of return of the Company based on the investment policies and objectives adopted for this policy.

The table below illustrates the impact on Death Benefits under Pessimistic and Optimistic Scenarios. The projected benefits under the two scenarios are calculated assuming the investment returns are lower and higher than the Company's current assumed investment return respectively; while other factors, such as claims experience, expense factors and persistency factors, affecting these values are assumed to remain unchanged. The two scenarios do not represent lower and upper bounds for the actual investment return; the actual amount of non-guaranteed benefits payable may be higher or lower than those illustrated. They only illustrate, for reference purposes, the projected variation of return of the Company based on the investment policies and objectives adopted for this policy.

6. Explanation Notes

- i. Sections 3a, 3b, 4 and 5 are only summary illustrations of the major benefits of your Basic Plan excluding any Supplementary Benefits as shown in Section 2 (if applicable) and assume that during the Benefit Term:
 - a) All premiums are paid in full when due;
 - b) No benefit has been paid and no partial surrender has been made;
 - c) No policy loan has been taken;
 - d) No policy changes has been made;
 - e) No Policy Value Management Option has been exercised; and
 - f) Death Benefit is payable in lump sum.
- You should refer to your licensed insurance intermediary or the Company for more information or, if appropriate, a more detailed proposal.
 The projected non-guaranteed benefits included in Sections 3a and 3b are based on the Company's dividend scales determined under current assumed investment return and are not guaranteed. The actual amount payable may change from time to time with the values being higher or lower than those illustrated. As another example, the possible potential impact of a change in the Company's current assumed investment return on the Total Cash Value and the Total Death Benefit are illustrated in Sections 4 and 5. Under certain circumstances, the non-guaranteed benefits may be zero.
- iii. The projected Special Dividend illustrated in Sections 3 a, 3b, 4 and 5 above are not guaranteed and are shown for your reference only. The Company will inform you the updated value of the Special Dividend regularly through annual statements. During the policy term, the value of the Special Dividend as shown in the annual statement(s) may be higher or lower than the one shown in the previous annual statement(s) since the value of the Special Dividend depends on how well the Company has performed with regard to investment returns on the assets supporting the policies under this LegendPower Life Insurance Plan, as well as other factors including but not limited to claims, persistency, expenses, and the long term future performance outlook. The actual amount, when only payable under the following circumstances, is determined by the Company at its discretion:

Special Dividend is only payable upon the earliest of the following events occurring: (a) death of the Life Insured unless there is a Contingent Insured on our record who becomes the new Life Insured (in accordance to policy terms); (b) surrender in full or in part of the policy; (c) cancellation, lapse or termination of the policy, or (d) any payment of Mental Incapacity Benefit.

- iv. Under Sections 3a, 3b and 4, the Guaranteed Cash Value can only be withdrawn upon surrender or partial surrender of the policy.
- v. Death Benefit will be calculated as follows as at the date of death of the Life Insured: the higher of: (i) 101% of Total Premiums Paid for the Basic Plan; or (ii) Guaranteed Cash Value, plus Special Dividend (if any) and Policy Value Management Balance (if any) less Indebtedness (if any).
- vi. "Total Premiums Paid" refers to the total amount of premiums of the policy due and paid for the Basic Plan. "Total Premiums Paid" will be proportionally reduced in the event that partial surrender has been made, the Policy Value Management Option has been exercised or the Mental Incapacity Benefit has been paid.
- vii. In Sections 4 and 5, benefits under Pessimistic Scenario are based on a decrease of about 2.00% p.a. whereas benefits under Optimistic Scenario are based on an increase of about 2.00% p.a. in comparing with the current assumed investment return.
- viii. If you have made any partial surrender or exercised the Policy Value Management Option or upon the payment of the Mental Incapacity Benefit during the policy term, the Death Benefit and Cash Value as illustrated above will be reduced proportionally.
- ix. If you exercise the Policy Value Management Option, a portion of the Guaranteed Čash Value plus a corresponding portion of Special Dividend (if any) as declared by us will be allocated to the Policy Value Management Balance, which will accumulate at a non-guaranteed interest rate to be determined by us from time to time at our absolute discretion. Your request to exercise this option is subject to our requirements on the minimum amount to be allocated and reduced Policy Amount, as determined by us from time to time. Please refer to the policy document for the detailed terms and conditions.
- x. Total Cash Value equals to the Guaranteed Cash Value less Indebtedness (if any) plus Special Dividend (if any) and Policy Value Management Balance (if any).
- xi. Age, in this illustration refers to Insurance Age. Insurance Age means, at any date, the age of the Life Insured on the last birthday prior to (or on the birthday the same day as) the Policy Date or the relevant Policy Anniversary.
- xii. When reviewing the values shown in Sections 3a, 3b, 4 and 5, please note that the cost of living in the future is likely to be higher than it is today due to inflation.
- xiii. The amount of total premium(s) may differ slightly from the total of the premiums payable in the policy due to rounding differences. Other projected values in this document are also subjected to rounding differences.
- xiv. By choosing plans denominated in currencies other than the local currency, please be aware of the relevant exchange rate risks.
- xv. The past performance or current performance of the Company's business may not be a guide for future performance.
 xvi. The amount illustrated above will be adjusted as a result of any change after policy issuance, including but not limited to partial surrender of the policy,
- payment of Mental Incapacity Benefit and the exercise of the Policy Value Management Option.
- xvii. Please note part of the premiums illustrated above will pay for the insurance and related costs.

Mrs. Lee can elect to exercise the PVMO at the beginning of the 11th Policy Year (i.e. Mrs. Lee's Insurance Age⁵ of 50). Please refer to the table below for the impact of locking up part of the cash value on the policy value under different market conditions.

Assuming Mrs. Lee locks in 60% of the Guaranteed Cash Value and non-guaranteed Special Dividend:

Aggregate sum of Guaranteed Cash Value and non-guaranteed Special Dividend at the start of 11 th Policy Year	USD1,584,850
The percentage of locked-in Guaranteed Cash Value and non-guaranteed Special Dividend	60%
Locked-in Guaranteed Cash Value and non-guaranteed Special Dividend	USD950,910
The remaining balance of Guaranteed Cash Value and non-guaranteed Special Dividend	USD633,940

Guaranteed Cash Value and non-guaranteed Special Dividend under different market conditions at the end of the 11th Policy Year:

Under current projected investment return (at the end of the 11 th Policy Year)	Assuming 15% increase in Special Dividend due to favourable market condition	Assuming 15% decrease in Special Dividend due to unfavourable market condition		
Guaranteed Cash Value and non-guaranteed Special Dividend without exercising the PVMO (USD)				
1,643,925	1,729,121	1,558,729		
Guaranteed Cash Value and non-guaranteed Special Dividend with the PVMO exercised (USD)				
1,627,498	1,661,576	1,593,420		
Difference in Guaranteed Cash Value and non-guaranteed Special Dividend with the PVMO exercised				
16 / 07	G7 E / E	2/ 601		

-16,427	-67,545	34,691

Note: Projected and/or potential benefits and/or returns presented in the above example are not guaranteed and are for illustrative purpose only

To summarize

- If the market rises, the Special Dividend may rise. If Mrs. Lee exercises the PVMO and locks part of the Guaranteed Cash Value and non-guaranteed Special Dividend, she may lose the opportunity to obtain a high potential return of the policy under favourable market condition.
- If the market falls, the Special Dividend may fall. In this case, the exercising of the PVMO may help to protect a portion of Guaranteed Cash Value and non-guaranteed Special Dividend locked-in Mrs. Lee's policy.

A revised Policy Schedule will be issued to the Policyholder.

- 7. Accidental Death Benefit will be automatically terminated (i) when such Accidental Death Benefit is paid out, or (ii) when the Life Insured has been changed, or (iii) on the date the Policy of basic plan lapses, terminates, expires, becomes void, is surrendered⁸ or cancelled, or (iv) on the Benefit Cessation Date of this Supplementary Benefit (whichever is the earliest).

- 10. If you enroll the Plan in foreign currency, all premium payable and policy benefits of this Plan will be recorded in the corresponding foreign currency. Since the two-way exchange of foreign currency and Hong Kong dollar bears the risk of exchange rate fluctuation, you should consider exchange rate risk before making the decision to enroll in the Plan. If you pay the premium or receive policy benefits in Hong Kong dollars, "Hang Seng Insurance" will convert the relevant amount from Hong Kong dollars to the corresponding foreign currency or from the corresponding foreign currency to Hong Kong dollars at the market-based prevailing exchange rate on the date your premium is processed or your policy benefits are settled. The exchange rate applicable at the relevant time is determined by "Hang Seng Insurance" and would be varied from time to time. The foreign currency exchange rate can go up or down. If you pay the premium in Hong Kong dollars, when the corresponding foreign currency appreciates against the Hong Kong dollars, the annual premium payable in Hong Kong dollars at the subsequent Policy Years would be higher than initial annual premium. If you settle the policy benefits in Hong Kong dollars and the corresponding foreign currency depreciates against the Hong Kong dollars when your policy benefits are settled in Hong Kong dollars, you could lose a substantial portion of your policy benefit value in Hong Kong dollars.
- 11. Net Cash Value means at any time, an amount equivalent to the Guaranteed Cash Value less Indebtedness (if any).

Product Risks

Credit risk

The benefits of this Plan are subject to the credit risk of "Hang Seng Insurance". The premium that you pay will become parts of "Hang Seng Insurance"'s assets, and the life insurance plans of "Hang Seng Insurance" involve policy benefits such as Death Benefit and surrender benefit payable to the Policyholders or Beneficiaries or Mental Incapacity Benefit⁶ Recipient by "Hang Seng Insurance". You should bear the credit risk associated with "Hang Seng Insurance" [i.e. the risk that "Hang Seng Insurance" may not be able to deliver its obligations bound by the policies (including the payment of policy benefits) due to financial difficulties].

Risk affecting non-guaranteed benefit determination

The scales for calculating Special Dividend at policy termination are not guaranteed and are determined by "Hang Seng Insurance" from time to time. Whether Special Dividend is payable and amount to be paid depend on how well the performance of relevant participating policies with regard to investment returns on the assets supporting the policies under this Plan, as well as other factors including but not limited to claims, persistency experience, expenses, and the long term future performance outlook (both economic and non-economic factors). The key risk factors are further described below:

- Investment risk factors The investment performance of the assets supporting the policies is subject to various market risk factors including but not limited to:
 - Interest rate risks The risk that the interest earnings and the values of assets will be affected by the change of interest rate level and its outlook, and lead to investment loss.
 - Equity risk The risk that the prices and volatilities of equity type investments and alternative investments will change and lead to investment loss. It is worth to note that Private Equity investments may involve higher level of volatility risk and liquidity risk than public equity investments.
 - Credit risk The risk of investment losses due to the default or change in credit quality of issuers of debt securities or counterparties.
 - Currency risk The risk that the values of investments that are in other currencies different from the policy currency will be affected by the change of exchange rates.
- **Claims factor** The actual experience of mortality and morbidity is uncertain which may lead to a higher than expected claim or living benefit payment and result in worse performance.
- **Persistency factor** The actual experience of policy surrender (full or partial) and policy lapse is uncertain, and therefore it has impacts on both the current performance and future return of the portfolio of the policies.
- **Expense factor** The actual amount of expenses incurred and apportioned to the group of policies may be higher than expected and impact the overall performance of the product. The expenses may include direct expenses which are specifically related to the group of policies, such as commission, underwriting, policy acquisition and maintenance expenses. It may also include indirect expenses such as general overhead costs which will be allocated to the group of policies.

Risk from the delay of or missing the payment of premiums due

You should pay the premium for the entire premium payment term when due. Any delay or missing of the payment of premiums due may lead to policy lapse, and the amount (if any) you get back may be significantly less than your premiums paid.

Risks from surrender

If you surrender⁸ the policy after the expiry of the cooling-off period, the surrender proceeds to be received may be significantly less than the Total Premiums Paid⁹. Please refer to the illustration summary of this Plan for the projected surrender values. All details regarding policy surrender should be referred to the relevant policy provisions.

Risks from Partial Surrender

The policy can be partially surrendered⁸ at any time after the coolingoff period. If the Policyholder has made any withdrawals through partial surrender, the Total Premiums Paid⁹ and Policy Amount of the policy will be decreased accordingly. This will reduce the Guaranteed Cash Value, Special Dividend (if any) and Death Benefit accordingly.

Liquidity risk

This Policy is designed to be held for a long-term period. Should you have liquidity needs for any unexpected events, you may apply for policy loan or surrender⁸ the Policy in full or in part subject to the respective policy terms, however this may cause the Policy to lapse or to be terminated earlier than the original policy term, and the amount (if any) you get back may be significantly less than the premiums paid. You may also apply for withdrawal of any accumulated amounts that are left within the Policy but the amount available for withdrawal is not guaranteed and the amount of Surrender Benefit and Death Benefit will be reduced accordingly subsequent to the withdrawal.

Inflation risk

Your current planned benefit may not be sufficient to meet your future needs since the cost of living may become higher in the future than it is today due to inflation, therefore you may receive less from the Plan in real term in the future even if "Hang Seng Insurance" meets all of its contractual terms and obligations.

Policy currency risk

By choosing the Plan denominated in currencies other than local currency, you are subject to exchange rate risks. Exchange rate fluctuates from time to time. Upon the currency conversion, you may suffer a loss of your benefit values and the subsequent premium payments (if any) may be higher than your initial premium payment as a result of the exchange rate fluctuations.

If you enroll "LegendPower" in Renminbi as policy currency, you may elect to pay premiums and receive policy benefits in Renminbi or Hong Kong Dollar. However, "Hang Seng Insurance" have the final discretion in determining which currency applies.

Renminbi is currently not freely convertible and conversion of Renminbi may be subject to certain policy, regulatory requirements and/or restrictions (which are subject to changes from time to time without notice). The actual conversion arrangement will depend on the policy, regulatory requirements and/or restrictions prevailing at the relevant time. As Renminbi is currently not freely convertible and is subject to exchange controls by the Chinese government, Renminbi currency conversion is subject to availability and "Hang Seng Insurance" may not have sufficient Renminbi at the relevant time.

You have considered the aforesaid exchange rate risk factors, conversion arrangement and the potential loss associated before applying for the Plan.

Policy termination

"Hang Seng Insurance" has the right to terminate your policy under any of the following circumstances,

- If you cannot make payment for all premiums due by the end of a 30-day Grace Period (unless if the Automatic Premium Loan is sufficient to cover the amount of the relevant unpaid premium);
- The policy loan with accrued interest exceeds the Guaranteed Cash Value;
- If "Hang Seng Insurance" reasonably considers that by continuing the policy or the relationship with you, "Hang Seng Insurance" may break any laws, or "Hang Seng Insurance" or a member of the HSBC Group, may be exposed to action censure from any authorities;
- "Hang Seng Insurance" also has the right to terminate your policy according to any supplementary benefits terms.

For details of the above, please refer to the relevant terms and conditions in the policy provisions.

Tax Reporting and Financial Crime

"Hang Seng Insurance" and other members of the HSBC Group have certain obligations to Hong Kong and foreign legal or regulatory bodies and government or tax authorities, and are bound by HSBC Group's requirements, regarding you and your policy and "Hang Seng Insurance" may from time to time request consent and information from you in relation to these obligations and requirements.

There are consequences, which will be set out in your policy terms, if you fail to provide to "Hang Seng Insurance" consent or information that is requested from you or if you present a financial crime risk to a member of the HSBC Group. Such consequences include that "Hang Seng Insurance" may:

- take such actions as are necessary to enable it or a member of the HSBC Group to meet these obligations and requirements;
- be unable to provide new, or continue to provide all of the services to you;
- be required to withhold payments or benefits that would otherwise be due to you or your policy and permanently pay those over to tax authorities; and
- terminate your policy.

The amount you get back from the policy in the event of benefits or payments withholding and/or policy termination by "Hang Seng Insurance" as mentioned above plus the total amount that you have received from the policy (if any) before policy termination may be less than the total amount of the premium(s) you have paid. "Hang Seng Insurance" recommends that you seek your own independent professional advice on your tax liabilities.

Notes on participating policy

"Hang Seng Insurance" issues participating policies, which are life insurance contracts providing both guaranteed and non-guaranteed benefits. The guaranteed benefits may include the following: 1) guaranteed death benefits, and 2) guaranteed cash values. The nonguaranteed benefits include policy dividends, which may be paid or varied at the discretion of "Hang Seng Insurance". The dividend of this Plan, if any, is in form of:

Special Dividend which is a one-off entitlement declared upon the death of the Life Insured (unless there is a Contingent Insured³ on the Company's record who becomes the new Life Insured pursuant to policy provision) or termination of the Policy (e.g. surrender etc.). The amount of Special Dividend may change from time to time based on the performance over the entire period before such declaration as well as the prevailing market condition and the actual amount will not be determined until it is payable.

Special Dividend may also be partially declared upon partial surrender⁸ or any payment of Mental Incapacity Benefit⁶. The amount of Special Dividend may change from time to time based on the performance over the entire period before such declaration as well as the prevailing market condition and the actual amount will not be determined until it is payable.

The key feature of participating policies over other forms of insurance policies is that in addition to the guaranteed benefits receivable, Policyholders will also benefit from additional dividend payments if the performance of relevant participating policies is better than that required to support the underlying guarantees. The better the performance, the greater the Special Dividend payments, and, conversely, the worse the performance, the lower the Special Dividend payments

Dividend philosophy

Special Dividend allows Policyholders to participate in the financial performance of the life insurance operations. Whether Special Dividend is payable and the size of the dividend which "Hang Seng Insurance" distributes or pays depend on the performance of relevant participating policies with regard to investment returns on the assets supporting the policies, as well as other factors including but not limited to claims, persistency, expenses, and the long term future performance of policies managed similarly are pooled together when deciding the amount of Special Dividend to be paid. Please refer to section "Product risks-Risk affecting Non-guaranteed benefit determination" on the product brochure for the detail of key risk factors.

"Hang Seng Insurance" regularly reviews the level of Special Dividend payable to Policyholders. Both the past actual performance and management's expectations of the long-term future performance will be assessed against the expected level. If variances arise, "Hang Seng Insurance" may consider sharing such variances with Policyholders through the adjustment of Special Dividend scale. If the performance over the long term is better than expected, then the amount paid would increase. If performance is below expectation, then amount paid would decrease.

When considering the adjustment of Special Dividend scales, "Hang Seng Insurance" strives to maintain a more stable payout to the Policyholders by smoothing. This means that the Special Dividend level will only be changed if the actual performance is significantly different from the expected level over a certain period of time or if management's long-term future performance expectations change substantially.

In order to achieve broad fairness between Policyholders of participating products, "Hang Seng Insurance" will carefully consider the experiences of different groups of policies so that each group of policies will receive a fair return reflecting mostly its own performance. "Hang Seng Insurance" has also established a dedicated committee to review the fairness of treatment to Policyholders and to provide independent advice on the management of the participating policies and the determination of dividend level.

Investment strategy

"Hang Seng Insurance" operates an investment strategy with key objectives as follows:

- i. Ensure that we can meet the guaranteed benefits that we have committed to you;
- ii. Deliver to your competitive long-term returns through the nonguaranteed dividends; and
- iii. Abide by a pre-defined set of risk appetite.

Participating Policy (Policy Currency: USD)

The assets supporting the participating policies are carefully managed and monitored according to a predefined set of risk appetite. The asset portfolio predominantly consists of fixed income assets issued by government and corporate entities with good credit quality and long term prospects. It may also include a small portion of high-yield fixed income assets to enhance yield. Growth assets, including but not limited to equities, properties, hedge funds and private equities are managed on prudent basis and may be utilized in order to enhance investment performance in the long run. Subject to our investment strategy, financial derivatives may be used for hedging or efficient portfolio management.

The asset portfolio is well diversified in different types of assets, and is invested in global geographical markets (mainly US, Europe, Asia including HK) and industries. Investment for fixed income assets are mainly in HKD and USD to match the currency of the underlying policies while growth assets are invested in various currencies for diversification.

Participating Policy (Policy Currency: RMB)

The assets supporting the participating policies are carefully managed and monitored according to a predefined set of risk appetite. The asset portfolio consists of fixed income assets (including both onshore bonds in China Inter-bank Bond Market ("CIBM") and offshore bonds in offshore ("CNH") Renminbi market). It may also include a small portion of high-yield fixed income assets to enhance yield. Growth assets, including but not limited to equities, properties, hedge funds, and private equities are managed on prudent basis and may be utilized in order to enhance investment performance in the long run. Subject to our investment strategy, financial derivatives may be used for hedging or efficient portfolio management. However, investing in RMB denominated assets is subject to applicable laws, regulations and guidelines issued by relevant regulatory authorities from time to time. Any change of the applicable laws, regulations and guidelines may lead to an update to the investment strategy and the associated investment performance may be affected.

Investment for fixed income assets are mainly in RMB to match the currency of the underlying policies while growth assets are invested in various currencies for diversification.

Target asset allocation

The current long-term target strategy is to allocate assets attributed to this product as follows:

Asset Type	Allocation %	
Fixed Income	40% - 100%	
Growth Assets (including private equity)	0%-60%	

There could be slight deviation from the above range due to market fluctuation.

Actual allocations will take into consideration past investment performance of the assets supporting the policies, prevailing market conditions and future outlook, and the guaranteed and non-guaranteed benefits of the policies. As the performance of the growth assets investment plays an important role in determining the level of nonguaranteed benefits, under normal circumstances and free from any investment and operational constraints, it is expected that the allocation to growth assets will fall within the higher end of the range as specified, in order to optimize the chance of achieving the illustrated level of non-guaranteed benefits. A good part of the growth assets investment is allocated to private equity. Due to the illiquid nature of private equity, there may be divergence in actual asset allocation and actions may be taken to rebalance from time to time. The management and investment strategy of the asset portfolio may be subject to change depending on the market conditions and economic outlook, and we would inform Policyholders should there be any material changes.

Accumulation Interest Rate

Policyholders can choose to exercise the Policy Value Management Option to lock-in a portion of Guaranteed Cash Value and nonguaranteed Special Dividend (if any) to the Policy Value Management Balance to accumulate with interests.

Policyholders can submit a written request to "Hang Seng Insurance" to change the default Death Benefit Settlement Option. If monthly instalments are selected, the remaining balance of any unpaid Death Benefit will be held at a non-guaranteed interest rate until the full amount of the Death Benefit has been paid to the Beneficiary(ies).

The accumulation interest rates are not guaranteed and will be determined by "Hang Seng Insurance" at its discretion from time to time. "Hang Seng Insurance" reviews the accumulation interest rates regularly with reference to the portfolio yields of fixed income assets, prevailing market conditions, the outlook on fixed income asset yields, the cost associated with the provision of the accumulation service, and the likelihood of policyholders leaving their payment for accumulation.

The policy in determining the dividends and accumulation interest rates may be reviewed and adjusted by "Hang Seng Insurance" from time to time. For any subsequent updates, please visit https://www. hangseng.com/en-hk/personal/insurance-mpf/other/policy-dividend/
